WORK EXPERIENCE

SOFTWARE DEVELOPER - FREELANCE | DEC 2025 - PRESENT

- Developed and delivered custom WordPress themes and plugins tailored to client business requirements.
- Maintained and enhanced a Warehouse Management System (WMS) supporting accurate inventory tracking and reporting.
- Providing ongoing feature development, maintenance, and performance optimization.

SOFTWARE ENGINEER - INTETICS | OCT 2024 - DEC 2025

- Developed and maintained WordPress websites, including custom themes, plugins, and internal tools for form submission management.
- Improved website performance by implementing caching, SEO optimization, and performance tuning, increasing site speed by ~60%.
- Managed and customized Unbounce landing pages, adding JavaScript enhancements to improve interactivity and conversion performance.

SOFTWARE DEVELOPER - FREELANCE | JUL 2023 - OCT 2024

- Built web and mobile applications for clients across healthcare and public sector industries.
- Developed management information systems and clinic-patient online consultation platforms.
- Created a mobile application for a Government Rural Health Unit to collect and manage demographic data.

FULL STACK DEVELOPER - GLOBAL OR AUSTRALIA | JUN 2017 - JUL 2023

- Developed and maintained hospital operating room management systems using React.js, Next.js, and Laravel APIs.
- Built frontend interfaces and backend services to support clinical workflows and real-time data handling.
- Collaborated with cross-functional teams to deliver stable, production-ready healthcare applications.
